

VET
INTERNATIONAL

Professional Congress & Association
Consultants & Organisers

The logo is centered in a white circle. It features the word "VET" in large green letters with a dog silhouette to the left and a paw print to the right. Below "VET" is the word "INTERNATIONAL" in smaller grey letters. At the bottom of the circle are four green icons: a hand, a leaf, a paw print, and a circular arrow.

Our mission

Made-to-measure events

**Organisation and professional consultancy
for scientific Congresses, Meetings and Communication Events**

**Vet International is a PCO (*Professional Congress Organiser*) company
leader in designing events
in the Veterinary and Animal Science field**

Our experience holds over 30 years now:
more than 600 meetings managed, thousands of delegates
welcomed all over the world and 80% of successful international bids.

We create and manage events through efficient and transparent procedures

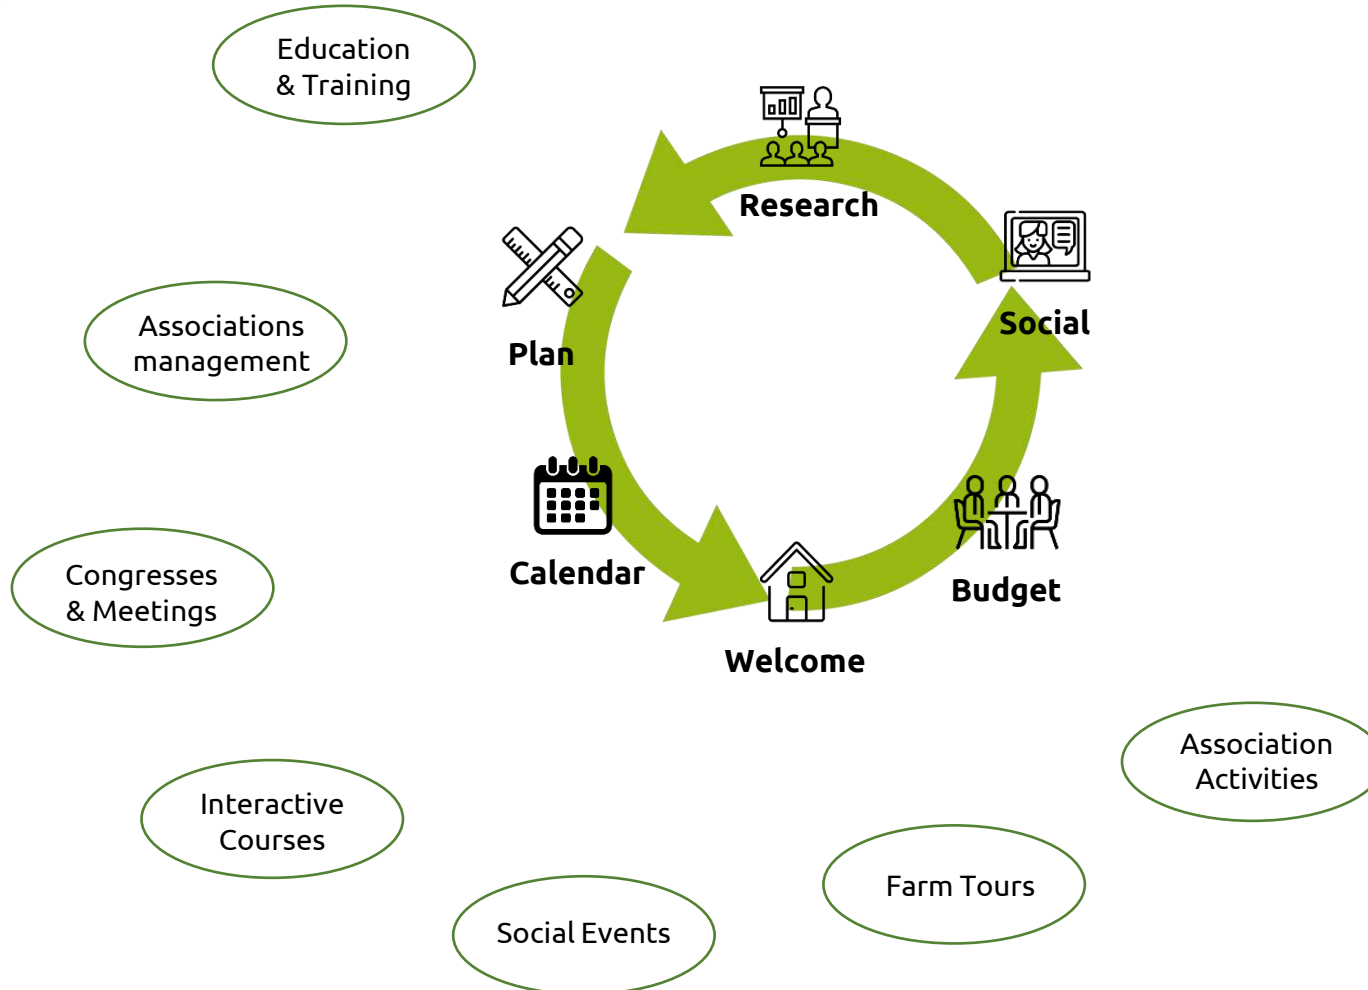

Our clients are **Associations, Universities** and **Companies**.

Vet International offers a wide range of services, from the concept to the realisation of the event: each project is the result of an analytical study, strategic planning and proper management to fully meet the customer's expectations

We put our expertise and consolidated experience at the clients' service in

- Project design
- Feasibility study
- Event planning and definition of the contents
- Promotional activities
- Fund-raising and sponsors management
- Budget elaboration and financial control
- Communication and marketing strategies
- Support and welcome of guests and faculty
- Coordination of the scientific programme
- Timeline definition
- On-site activities

Association Management

VET International as an
Association Management Company (AMC)
provides the professional support to
scientific, non-profit and charity Associations
through
staff and services exclusively dedicated

- Secretariat management (Members and Executive Boards)
- Management of services (Study groups, Regional Delegations, Scientific Committees)
- *Ad-hoc* fiscal framework
- Treasury management (Refunds, tax declaration, membership quotes)
- Training courses and strategic consultancy
- Visual communication and website management
- Communication with members
- Management of grants, scholarships and contributions
- Bidding for international congresses
- Core PCO services for a long-term partnership

Our services for the Associations

Vet International works side-by-side with the Associations, as a partner, offering **integrated services** and a **dedicated professional team**.

Overall consultancy, high level services and support on **technical-legal aspects**.

Scientific **promotion** and **communication** for Associations to increase **memberships** and improve **visibility**.

We act as consultants, providing support for all aspects in the area of organisation, training, administrative and legal bureaucracy for Associations.

Our Associations may decide to set their headquarters at our premises in Milan where they can hold their board meetings as well.

We provide a specialised Association Secretariat service, offering a complete administrative and treasury support.

We organise courses and congresses, both residential and virtual, focusing on communication and digital tools in order to achieve immediate impact on the members.

Taxes & Legislations

Management of fiscal and legislative aspects

An appropriate tax setting strongly improves the management processes and enables our client to benefit from economic advantages.

VET International's expertise in the current legislations is of outmost importance in the management of any Association and event.

We focus on every single detail, in particular when dealing with legislations and fiscal policies, both in Italy and worldwide.

Some of our Associations

ALE - Associazione Lombarda Provveditori ed Economi

AIMN - Associazione Italiana di Medicina Nucleare ed Imaging Molecolare

AMCLI - Associazione Microbiologi Clinici Italiani

CI - Combustion Institute

EAPLF - European Association Precise Livestock Farming

EASAPS - European Association of Societies of Aesthetic Plastic Surgery

EBVS – European Board of Veterinary Specialisation

ECPHM - European College of Porcine Health Management

EFLM - European Federation of Clinical Chemistry and Laboratory Medicine

ESPT - European Society of Pharmacogenomics and Personalised Therapy

ESRA Italian Chapter - European Society Regional Anaesthesia

FISMELab – Federazione delle Società Scientifiche Italiane nel Settore della Medicina di Laboratorio

GICN - Gruppo Italiano di Cardiologia Nucleare

IFCC - International Federation of Clinical Chemistry and Laboratory Medicine

ITPA - Italian Proteomic Association

NEWMICRO - Network di Microbiologia e Virologia del Nord-Est

ORTHOPEA - Associazione scientifica di Anestesia e Ortopedia

Q - Accademia di Qualitologia

SIDILV - Società Italiana di Diagnostica di Laboratorio

SIFACT - Società Italiana di Farmacia Clinica e Terapia

S.I.F.E. - Società Italiana di Fissazione Esterna

SIMPIOS - Società Italiana Multidisciplinare per la Prevenzione delle Infezioni nelle Organizzazioni Sanitarie

SIPA - Società Italiana di Patologia Aviaria

SIPAS - Società Italiana di Patologia ed Allevamento dei Suini

SIPMeT - Società Italiana di Patologia e Medicina Traslazionale

WASPALM - World Association of Societies of Pathology and Laboratory Medicine

Customised services for congresses

Design and development of customised software for the management of the Congress

We offer dedicated systems for a user-friendly management of some of the most time-consuming congress activities, such as registrations and abstract submission

Registration - VEMS

Software dedicated to the registration management for Veterinary medicine events

Vet Events Management System (VEMS)

- Creations of Congress categories with corresponding registration fees
- Management of registrations, participants and personal data in compliance with GDPR
- Company groups
- Automatic emailing (confirmation, financial documents – invoice or credit note, payment reminder)
- Possibility to set the system according to the local VAT applied in the hosting Country
- Export of Excel Databases
- Personalised badges and certificates
- On-site registration software

Registration - VEMS

Online registration linked to the Congress website

A flexible system customised according to the event format and online registration form directly linked to the Congress website

- Attendee's personal data and registration details
- Creation of univocal credentials (user ID & PW) to enter the system
- Different categories and registration fees
- Online social events purchase
- Different means of payment - i.e. credit card or bank transfer
- Personalised invoice heading
- Immediate invoicing
- Dedicated registration area for Companies to allow our Industry partners to manage independently orders and group registration

Abstract Management

**VET International
has developed a dedicated software
to process all the phases of the
Congress Abstracts management**

Many functions for an easy and efficient
management of all crucial stages

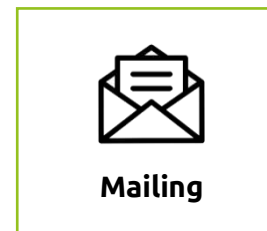

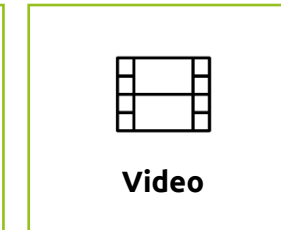

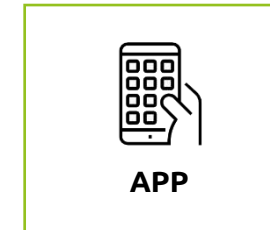

- **Abstracts submission system connected to the Congress website**
 - ✓ Personalised credentials for each submitting author
 - ✓ Registration of the authors' details: affiliation, position in the authors' list, presenting author
 - ✓ Authors' reserved area: authors can upload more than one paper and decide when to finally send it for review
- **Abstracts review system**
 - ✓ Creation of customised pages and credentials for each reviewer
 - ✓ Smart and simple evaluation process with drop-down menu and boxes for comments and/or suggestions
- Automatic emailing (abstract registration, abstract submission confirmation)
- Back-office software for managing all processes and supporting authors and reviewers

Creative Communication

Each project is unique and developed thanks to a dedicated strategy, created by a team work with the client and our creative communication staff:

- Graphic design for the congress (logo and visual identity)
- Editorial plan
- Newsletter: content proposal and editing
- Social Network pages dedicated to the event and contents management
- Customised digital communication strategy
- APP & Website development
- Video production

Preparation of Bids

Taking part in a bid for the assignment of a congress is a stimulating and enriching challenge. Vet International with its specialised business area supports you with experience, professionalism and determination so that your proposal may be the winning one.

VET International
is at the side of scientific Associations, Universities and Institutions
to provide a strategic consultancy for both national and international events
and in the preparation of the bidding documentations
(i.e. study of the submission guidelines, elaboration of the financial feasibility project, design of the organisational aspects, production of the bid book, official presentation and promotional video)

Core PCO

Vet International as Core PCO

A Core PCO offers the same expertise and services as that of a PCO but, instead of providing these services for a one off event, provides these for either multiple events or on a multiple year tenure: there are many different ranges of services that a Core PCO can take care of as much or as little as you require, still **coordinating the core activities** from the perspective of Association
(in case, delegating to the LOC the on-site management of some services)

Benefits of appointing a core PCO

Often the lead-time in planning a congress can be years rather than months and therefore the relationships, understanding and knowledge gained during that time between the PCO, the umbrella organization and the local hosts becomes a valuable asset.

Efficiencies are gained by reducing the time in selection processes (to recruit a PCO on an event by event basis) and significant **time savings** in not having to re-brief the agency each time on the scope and format of the event.

As there is a **longer term relationship**, this also enables the PCO to provide additional added value. A continued working partnership enables the Core PCO to advise on **strategic goals, innovations** and align their **expertise** with the organization's needs.

The Core PCO can also assist by taking a strategic approach to future event selection, feasibility and procurement.

Core PCO

Delegating Congress Management Responsibility

An Association may delegate some aspects of the organization of the event to a local host member through a tendering process: having a Core PCO can help provide a level of continuity from one event to another when the organizing committee changes.

A Core PCO can also help to ensure that the knowledge of the event is transferred from one event to the next and that the event meets the objective of the umbrella organization.

Long-term Planning, Efficiency, Savings and Strategic Input

A Core PCO provide dedicated resources, expertise and continuity to the Association.

Having a Core PCO who has been contracted for a specified timeframe also enables you collectively plan ahead. The PCO can be part of that process, adding value in conducting feasibility studies for new destinations, coordinating and negotiating suppliers and venue procurement.

By contracting a Core PCO you will be able to negotiate more favourable terms for a multiyear / event contract.

Core PCO – Case history

ECPHM

European College for Porcine Health Management

ESPHM

European Symposium of Porcine Health Management

1500 pax

VET INTERNATIONAL
acts as official partner for ECPHM

- Core PCO for the annual event to be held in a different European country
- 5 years contract / 5 editions of the event
- Consultancy in the preparation of the ESPHM Handbook (guidelines for the international bidding and Symposia organization)
- Overall Financial consultancy
- Sponsors management and partnership strategies
- Proposals for innovations
- Long-term strategies follow-up

- Support to ECPHM and LOC (yearly appointed)
 - Destination and venue selection
 - Check of the requirements and fulfillment of the event standards (logistics, administrative and commercial features)
 - Budget and feasibility project elaboration
 - Bidding procedure
 - Consultancy to LOC
 - Management of the core activities to ensure continuity in the provided services
 - Collaboration with a local organizing partner (if any) and involved suppliers

Core PCO – Case history

IFCC

**International Federation of Clinical Chemistry
and Laboratory Medicine**

IFCC WorldLab

3500 pax

- Core PCO for the biannual congress to be held in a different country (worldwide)
- 10 years contract / 5 editions of the event
- Provision of the following specific services to IFCC and COC - Congress Organizing Committee (appointed for each congress):
 - Develop the template budget and provide oversight of the preliminary and final budgets
 - Assist for the selection of the congress venue and the booking of hotel space for participants and guests
 - Manage the project and the time-schedule of the organizational steps, ensuring that events will be kept on schedule
 - Promotion and advertisement of the Congress
 - Management of conference registrations
 - Management of the abstract submission and publication
 - Recruitment of corporate sponsorships and management of the exhibition organization.

Core PCO for the following Associations & Congresses

VETERINARY & ANIMAL SCIENCE

Sensitivity to sustainability

VET International is a sustainable and plastic-free company working towards minimising the environmental impact throughout the organisation phases of our events

- ISO 20121 and ISO 26000 for sustainable events
- Reduction of printed material and increasing the use of recycled material
- Location with Green Certification
- Low impact transfers and proposal to buy compensational carbon credits
- Reduction and recycling of waste
- Use of catering services that offer sustainable 0 km menu
- Sustainable events (i.e. innovative sponsorship proposals, local suppliers involvement, digital communication, «green» approach on-site, walking distance solutions)
- Being part of the *Food for Good* project

Great attention is therefore given to surplus food. The company is a promoter and part of Food for Good, an Italian project aiming to recover surplus food at the events, which is subsequently donated to charitable organizations. This project does not imply much work or money; it complies with the *Law of the Good Samaritan* and the most recent European legislation.
